

Gaia – Men's Skin care and Hair care products

About Gaia products

Gifts for Blokes have chosen to stock the range of Gaia products for men as they are Certified Organic, Made in Australia and are great for sensitive skin. The Gaia men's range includes; Shampoo, Conditioner, Face and Body Wash, Shave Gel, Scrub, Face Cream and a handy travel/starter pack.

All Gaia products are free from:

- petrochemicals, mineral oil and lanolin
- soap, **sulphates** and other drying agents
- paraben preservatives and propylene glycol
- and other commonly used ingredients that can be irritating or drying to skin.

The products are all Cruelty Free Accredited, this means that;

- All products are free from animal ingredients or animal by-products.
- All products, excluding one, are vegan friendly - Skin Soothing Lotion contains beeswax therefore it is vegetarian friendly.
- No animal is harmed in any way to create the products and they don't test on animals.

They also fully list all their ingredients on their packaging which is not (would you believe) not a requirement by law to list all your ingredients! Cosmetic labelling laws state that anything under 1% of the total formulation does not have to be listed on the product's label.

Plus the best thing - Gaia products have no girly smell - they are for men!

Ingredients used in Gaia Products for Men
