

# soundstuff Solarmonkey

Free your sound for free – instant power from the sun

*Product  
Launch*

## powertraveller

- Power your gadgets directly from the sun
- Tough rubberised casing

You know what it's like. You're away from home, you really need to make that one call .... And your mobile phone has just run out of battery power (again). Or maybe you're relaxing on a beautiful beach and your iPod has just played its final tune.

Ultra compact, tough and powerful, the SolarMonkey is always ready for your next adventure. It can be attached to a rucksack, hung from a window, left in a car or even under a desk lamp – letting you charge wherever, whenever.

### Suitable for:

- Mobile Phones
- iPods
- Digital Cameras
- PSPs/ Ninetendo DS
- MP3 players
- **Includes:**
  - 1 x Solar Monkey charging unit
  - Adaptors for: Samsung E900 series, Sony-Ericsson T28 series, Motorola V66 series, Siemens C25 series adaptor, Sony-Ericsson K750i series, Nokia N70 series, Mini Nokia ☐ 1 x Mini USB for Motorola Razr V3, V3c and Blackberry
- 1 x USB adaptor for iPod, smart phones, PDAs, digital cameras and other devices
- 1 x Connector for Sony PSP and most digital camera

Can be used to power the K3000 Micro ipod speaker.

*SolarMonkey shown with ipods, speaker & mobile phone for demonstration purposes only. SolarMonkey does not come with ipods, speaker or mobile phone.*

" This nifty lightweight device will power your mobile phone, iPod or other digital devices through its very own mini solar panel, which I powered up during a rainstorm! Great for camping, overland trips, etc. Good things come in small packages."

*Lyn Hughes - editor of Wanderlust magazine*
